

Think Blue: About Us

About Us

Think Blue Exeter is a public outreach campaign designed to provide simple tools that people could implement to reduce their contribution to stormwater pollution. This is a combined effort of the Town of Exeter, the [Exeter Conservation Commission](#), the [Exeter River Study Committee](#), the [Piscataqua Rivers Estuaries Partnership \(PREP\)](#) and [NH Department of Environmental Services](#).

The THINK BLUE outreach program is modeled after [Maine](#) and [San Diego's](#) Think Blue campaigns.
